

Next Thursday (March 6), I would like to invite you to a complimentary lunch and energy forum dealing with solar energy. We have a great panel that includes an owner, developer, financier, and legal expert.

Some uncertainty exists regarding Renewables because of the recent expiration of the Investment Tax Credits (ITC) for wind energy. Now, there is a proposal in the US Senate that would permanently reduce the solar ITC from 30 percent to 20 percent. Current law call for the solar ITC to reduce to 10 percent in 2017. We will be discussing tax credits and a wide range of other solar topic on the 6th.

Please join us for this complimentary lunch and discussion. The topic is timely and we will do our best to provide a valuable discussion. [Click here to register for the event in Cleveland.](#) [Click here to attend via webcast.](#)
